

Share a story about a time when **your** students were excited about/with science.

<p>Who? Who are you? Which kids?</p>	
<p>What? When? What was the topic? How did you approach it? How long were the students engaged?</p>	
<p>Where? Where did the experience take place? Were there aspects of the environment that seemed to affect/support the experience?</p>	
<p>Why? Why do you think the experience was successful?</p>	
<p>How? How did the students feel about the experience? How did you feel?</p>	
<p>Please share an "ah ha" moment, quote or moment you remember vividly from the experience.</p>	
<p>What patterns did you noticed across the experiences shared today in this workshop?</p>	
<p>Topics, teaching techniques and/or partnerships inspired by this workshop, that you will now explore as a result of this workshop include:</p>	

Science World British Columbia is working to support and celebrate inspirational science teaching and learning. As a part of this commitment, we aim to profile one innovative teaching and learning story each month through our www.scienceworld.ca website beginning in April 2014. Please let us know if you would be interested in sharing your story. Your commitment would include: willingness to share your experience, participating in an interview by a Science World team member, providing photographs and/or videos and assuring appropriate photo permissions are obtained as required in your district.
